

Details for Chrissie

Microphone

- An over-the-ear mic is preferred.
- A lapel mic is the next best option.
- If neither is available, a handheld will work!

Recording

- If you're making a video or audio recording of the event, I would love a copy.
- You're welcome to distribute the video/recording to women in your church, but please ask them not to distribute outside of the church or post it online.

Stage Set-Up

- I like to have a podium or music stand on stage, set off-center to the right and slightly angled to my set notes and Bible.
- If possible, a small stool or table near the podium is also very helpful, in case I have any extra books or materials I'll need during the talk.
- A water bottle or a cup of water 1/2 full (so I don't spill) set on the table or stool would be very helpful, just in case I need a sip.

Before I Go On-Stage

- Before I speak, I always need time alone with Jesus to prepare my heart and hear from Him. If there is a quiet room I can be alone in with Him before it's my turn to speak, that would be wonderful. It doesn't need to be anything fancy, just a quiet place with a chair and a light so I can read Scripture and pray.

I hope this is helpful as you prepare. Thank you for welcoming me and for all you're doing to make this a wonderful event!
